DEMOCRATIC TICKET.

For President,
GROVER CLEVELAND,
of New York.

For Vice President,
ALLAN G. THURMAN,
of Ohio.

For Congress,
THOMAS H. PAYNTER,
of Greenup County.

A Life-long Republican Gives Paynter a Send-off.

Professor John S. Mavity, editor of the Vanceburg Times, was a gallant soldier on the Union side and has been a life-long Republican. He has the following to say in the last issue of the Times of our candidate for Congress:

Hon. Thomas H. Paynter has been selected by the Democracy of this district for Congressional standard bearer, and he is worthy of the trust confided in him. Mr. Paynter is a native of Lewis County and a man for whom the Times has the greatest esteem. When we were looking for a friend, he stood ready to help, and through his aid and kindly influence we are to-day indebted for being able to demonstrate to the world the superior advantages of Lewis County in a boom issue of the Times. We know of no man in the district more worthy of a political boom at the hands of the Democracy than Thomas H. Paynter, and none that we would more cheerfully give space in this issue, not on account of his being a Democrat, but for the reason that our personal good wishes for him transcend any party affiliation that we possess.

He also in the same issue speaks of the nomination of Major Burchett by the Republicans as follows:

A telegram from Catlettsburg at 4 p. m. Tuesday, August 28th, says that D. J. Burchett, of Lawrence County, was nominated by the Republican convention, as a candidate to try to beat Thomas H. Paynter, for a seat in the Fifty-first Congress. From an independent standpoint it looks like the Republicans will be left this time, but we have the satisfaction of knowing that a man worthy the respect and esteem of even the rankest Republican, will be our next Congressman; for Thomas H. Paynter is a native of Lewis County, and is one of those grand young men of whom she has produced many, who have carved out a name and fame for themselves by honest endeavor and persevering effort.

The Democracy of Nicholas County is a unit for Thomas H. Paynter for Congress, while the Republicans are lukewarm for Burchett, their nominee.

The Greenup Gazette says Hon. Thos. H. Paynter would have been elected in 1882 had he received the nomination. Well, he is stronger now, and will be elected in November. But Democrats should ever bear in mind that they must go to work and see that the full vote is polled for him.

The following Maysville horses are entered in the races to be trotted at Paris next week:

Parker & Fitzgerald's b. f. Lady Fitz by Enterprise, dam Endowment.

Clift & Fitzgerald's b. m. Pearl Medium by Happy Medium, dam by Gentle Breeze.

Clift & Fitzgerald's bl. s. Alcandre by Alcione, dam Lady Carr, (dam of Administrator 2-21).

Clift & Fitzgerald's b. g. D. C. S. by St. Elmo. J. W. Fitzgerald's b. c. McAllister by Egbert, dam by Bill Adams.

There is a large list of entries in the various classes, and the racing promises to be spirited.

POLITICAL POINTERS.

Prospects for a Democratic Victory in November Growing Brighter Day by Day.

People Who Are Coming Out for Cleveland, Thurman and Tariff Reform—Newsy Notes.

Seymour, Ind., Aug. 29.—(Special.)—The Democrat of to-day publishes the following communication:

"We, the undersigned soldiers, having served in the following companies and regiments, and never having voted anything but the Republican ticket, desire to say that we, after having examined the vetoes of President Cleveland in private pension bills, approve of his course, and wish to say to our comrades that we will each of us vote for Grover Cleveland for President and the entire Democratic State ticket for the first time.

"D. L. Peacock, Co. C, Thirty-third Indiana; G. W. Mitchell, Twenty-second Indiana; Jno. Smith, Co. K, Twenty-second Indiana; Jos. Dugman, Seventh and Tenth Indiana; Wm. Kramer, Co. D, Fourth Ohio Cavalry."

The Valatie Rough News prints the following letter from Mr. Erastus Corning:

"I note that you say a correspondent of the New York Press was in your town the day you wrote to me, reporting that he had an interview with me, in which I said that I had always been a Democrat, but intended to vote for Harrison and Morton this year. No such interview has ever taken place. I have very large iron and steel interests in this country, and if I am spared until election I intend to vote and do all that I can for the re-election of Grover Cleveland. I am most decidedly in favor of tariff reform as proposed by the Democratic party, firmly believing it to be for the best interests of the laboring man as well as the capitalists."—Cleveland Plain Dealer.

The Rev. Dr. William De Witt Hyde, President of Bowdoin College in Maine, and one of the most prominent among the new generation of educators, although bred a Republican, has been driven by the free whisky and high tariff platform of the party to support the Democracy in this campaign, and is soon to state the reasons for his course in an address to his fellow-citizens of Brunswick.

The tariff is an indirect tax. The protective tax is of this kind. It is a tax on the poor man, and as poor men are more in number they pay the most of this tax. The more children a man has the more tax he pays. The more comforts he gives his family the more tax he pays.—Buffalo (N. Y.) Courier.

The San Francisco Daily Reporter (independent) says: "The Reporter will not support Harrison for the Presidency of the United States. It will do all that it can to defeat him. Personally we have nothing against him. But his policy—all his utterances and acts while he was a comparatively free agent and master of his own acts—was pro-Chinese, and anything we can legitimately do to prevent him from reaching the White House we shall do."

The New York Evening Post prints a list of one hundred and forty prominent manufacturers, many of whom formerly voted the Republican ticket, who now declare that they will vote the Democratic ticket in this contest. These manufacturers represent nearly all of the principal industries in the country.

Cleveland Plain Dealer: "They are coming by the hundreds and thousands. The latest to desert the ranks of Republicanism is John Stephenson, the great car builder, who has voted the Republican ticket since the days of the party organization. Mr. Stephenson is for Cleveland and reform."

J. Milton Turner, of St. Louis, formerly minister to Liberia under Mr. Hayes, who is now Chairman of the Colored National Democratic Committee, says that in the West, especially in Illinois, Indiana and Michigan, the colored vote will be about equally divided between the two great parties. There will be about 100 colored speakers on the Democratic side.

There are 200 labor papers in the country, of which only one supports Harrison, about a dozen are non-committal, and the rest are for Cleveland.

After a long review of General Harrison's record the Nation comes to the conclusion that as the advocate of centralization, the defender of reckless pension schemes, the friend of Hennepin Canal jobs, General Harrison is not a safe man to be President.

James G. Blaine brought home from Europe thirty-two trunks and a score of parcels and bags, containing products of "pauper labor" in England, France and Scotland. He came across the ocean on a free pass, it is said, in a new ship owned by "British free traders" and built by the "pauper labor" of England.

His interests in the American workingmen is in his tongue, not his pocket, and his jabber against foreign goods and foreign labor is all gotten up to delude and catch the workmen of this country.

The Republicans say that the Mills bill reduction of taxation from 47 per cent. to 40 per cent. is free trade, because it would lead to a further reduction of taxation. In other words they fear that the people would be so much pleased with the Mills bill, if made a law, that they would demand more, and a heap more of it. And their fears are well grounded, too.—Louisville Times.

A LAND OF REFUGE.

Latter Day Saints Preparing to Emigrate to Mexico.

NEW YORK, Sept. 3.—The Utah Mormons are looking to Mexico as a land of refuge. They have already purchased 4,000,000 acres in the domain of the Zuni Indians, and have secured a government concession for the improvement and working of about 10,000,000 acres of timber and mining land.

It is now understood in Utah that the church is operating on a definite plan to gradually remove all the faithful to Mexico. The allotment of families who are to go is made at the president's house. The names of the male members of the church are thrown together in a box and then drawn out. Every tenth is marked for departure to Mexico, and after the drawing has taken place every tenth man is notified, and given a certain length of time in which to dispose of his worldly possessions and take his departure. If he owns property he is required to sell it out at once. There is a pretty fair demand for property in Utah from the incoming Gentile tide, and, as a rule, the properties are sold to Gentiles. If it is found impossible, however, to unload in this way, the church orders an appraisal, and takes it off the man's hands, so that he can proceed to the new territory unhampered by any possessions in Utah. It is likely that several thousands of Mormons will leave the territory this winter. Many of them object to the emigration, even after they have been drawn, but the order of the church is imperative.

Height of Meteorological Stations. Of the present very limited number of high stations for making meteorological observations there are only two in Europe which exceed 3,000 meters in height, being about 10,000 and 11,000 feet respectively. Among those in this country Pike's peak, which has an altitude of 14,100 feet, exceeding thus, by more than 3,000 feet, any in Europe. These great heights are much more accessible on this continent than in Europe, there being five in America where 11,000 feet or more is reached by railroads built for facilitating mining work; the highest of these in North America is Mount Lincoln, in Colorado, the mining works on which are 14,257 feet above the sea.—Public Opinion.

Cotton Planters Discouraged. ALEXANDRIA, La., Sept. 3.—Cotton planters from different parts of this section are all discouraged at the crop prospects. Some complain of worms and of rain washing off the pollen. All say that the bottom crop of bolls is rotting, and the seed in the open cotton is sprouting, and that the crop will be cut off not less than 40 per cent. It rains about twice every twenty-four hours, with no appearance of its stopping. Dispatches from many points in Louisiana and Mississippi complain of worms and much rain.

Excessive Drouths—Many Fires. MONTPELIER, Ind., Sept. 3.—Great damage has been done to fencing, corn-fields and isolated small buildings by fire, which, because of excessive drouth, spread rapidly all about this city. A large field of clover north of town was burned Friday morning. The smoke was so thick during the afternoon that lamps were necessary.

"When idle millions plead for work
 Their families to keep,"
 The Democrats "walk up to law"
 And make their clothing cheap;
 They give the wool for idle looms
 That labor's busy hands
 May make the goods mislaid has made
 Us buy from foreign lands.

NOTE—Counsel Schoonhof, at Tinsell, England, has furnished the State Department, under date of June 5, 1888, with the following: "The manufacturing cost per pound of finished woolen cloth is 38 cents in America against 38 cents in England, 5 cents less in America; but the wool costs 38 cents more in America, on account of the duty. In other words, if we had wool at the same cost as the English (free wool) we could produce at 64.31 cents what it costs in England 69.90 to produce. From this it will be seen that wool cloth with free wool can be made here cheaper than England can make it."

A Serious Accident.

Mr. and Mrs. D. R. Lindsay, of the St. Charles Hotel, started to the vicinity of Lewisburg yesterday afternoon to spend the evening with relatives. They were in a buggy and were accompanied by their children, Willie and Maude. When opposite the residence of Mr. and Mrs. J. W. Fitzgerald on East Third street, one of the front wheels suddenly came off. This frightened the animal, which began kicking violently, and parties who were near expected to see all the occupants of the vehicle seriously injured. Mr. Lindsay retained a firm grip on the lines, however, and his wife and little daughter were soon extricated from their dangerous situation. His son, Willie, was thrown out at this point by a sudden plunge of the horse, one of the hind wheels of the buggy passing over the little fellow's abdomen. Dr. T. H. N. Smith had reached the scene by this time, and finally got control of the animal. Mr. and Mrs. Lindsay escaped with a few light scratches. Their daughter was not injured, but their son was found to have sustained painful wounds. The little fellow was removed to his home where Dr. Owens was summoned and dressed his injuries. He suffered much last night, but was resting easier this morning.

The Huntington Bridge.

President Ingalls, of the Chesapeake and Ohio and Big Four Roads, says that work on the Huntington bridge, now in course of construction, will be pushed with vigor, and that the channel span, a portion of which was recently carried away by the drift and high water, will be completed by the 20th of October. The work of driving new piles upon which to erect the false-work was commenced Saturday. Work will be prosecuted both day and night until the channel span is completed. An electric light plant will furnish the workmen light by night.

The contractors expect to have nearly a thousand men engaged on the work when everything is ready, so that a day and night force can be worked. The iron for the new traveler is now being got out at the bridge company's works. Every piece that was in place and went down when the false-work let go is being duplicated, and will be used if the iron that was used before is found to be damaged in the least. The contractors are on their mettle now, and the work of construction will be pushed as rapidly as possible. It is expected that with good luck from now on the bridge will be completed by the first of next January.

Conductor Butler Assaulted by a Negro.

The Lexington correspondent of the Commercial-Gazette says a dastardly assault was committed by a negro on Conductor Butler, of the Kentucky Central Railroad, near Rowland Station, early Saturday morning. Several negroes, among them Butler's assailant, got on the train at that station for Paris. They were evidently members of some order, being dressed in uniform and all wore sabers. They took seats in the ladies' coach, and one of them lit a cigar, and, with his feet cocked up on an opposite seat, proceeded to smoke it, to the annoyance of a number of lady passengers. When the conductor came through the car to collect fares he informed the colored gentleman that if he wanted to smoke he must go to the front car. This angered the negro, and during the war of words which passed between him and Butler, one of the former's companions hit the latter over the head with his saber, cutting through his cap and inflicting a serious scalp wound two inches long. His assailant has not as yet been apprehended.

DIED.

At the residence of his brother-in-law, Mr. J. W. Wells, Summit Station, on Wednesday evening, August 28th, JOHN W. BULLOCK, Jr., in the thirtieth year of his age. The deceased was the oldest son of Elder J. W. and Emma L. Bullock, and this is the first death in the family, and hence is a particularly sad event. The hitherto unbroken circle is severed—A loved form will be seen no more on earth. But Jesus says "I am the resurrection and the life. He that liveth and believeth in me shall never die." The funeral service was preached by W. B. Priest Friday at the residence of Mr. Wells, in the presence of a large and sympathizing audience of kindred and friends.

HIS MOTHER'S ADVICE.

EMPEROR WILLIAM HAS GRADUALLY
YIELDED TO IT.

And Is Now Studying His Father's Plans.
John Bull Sends Three War Vessels to
Quebec as a Reply to the President's
Message—Other Foreign News Notes.

LONDON, Sept. 3.—An attaché of the German embassy in London, in an interview respecting the Emperor William's appointment of Herr Von Bismarck, the leader of the National Liberal party, to be governor of Hanover, said the emperor has only taken a step which his father intended to take had he lived a short time longer. The appointment was agreed upon in a conference between the late Emperor Frederick, Prince Bismarck and the National Liberal leader, held about two weeks previous to Frederick's death.

Under the influence of his masterful prime minister, William has gradually yielded to his mother's advice, and is now actually engaged in studying the governmental plans elaborated by his father previous to the latter's death. During the life time of Emperor Frederick the present emperor was undoubtedly on bad terms with his parents, but since his accession to the throne his demeanor towards his mother, both in public and private, has been all that could be wished.

The question is whether William has sufficient force of character and conviction to resist the baneful pressure of the war party and the anti-Liberal sections, and adopt entirely the Liberal policy his father intended to pursue. The various changes in the German army, and the appointment of Herr Von Bismarck were undoubtedly part of the governmental program which the Emperor Frederick intended carrying out.

The German emperor's speech on the occasion of the unveiling of the statue of his kinsman, Prince Frederick Charles, has been construed as portending a warlike policy, but it was without doubt made in the interest of peace. The slightest appearance of vacillation on the part of Germany concerning Alsace Lorraine would quicken the revengeful dreams of France into dangerous activity. This time last year the Duc D'Aumale expressed his confident expectations that Gen. Boulanger would never rest until he had acquired the military dictatorship of France, and that when acquired he would use it for purposes of aggression across the frontier.

It is true that in his recent performances he has failed. But it must be borne in mind that Louis Napoleon in the fortress of Ham had failed and lost prestige quite as conspicuously as has Boulanger and when he made his descent on Boulogne, accompanied by his tame eagle, was quite as ridiculous. It is possible, therefore that Gen. Boulanger may be one day in a position to endanger the peace of Europe, and it is well that the French should know that they have nothing to hope for from the youth and inexperience of their imperial neighbor.

Italy Urged to Attack Abyssinia.

LONDON, Sept. 3.—Monsieur Antonelli, who has resided for many years as the chief of the papal mission at the court of the king of Shoa, comprising the three most southerly states of Abyssinia, has returned to Rome. In an interview with a correspondent at the Italian capital the prelate gave an account of the condition of affairs in Abyssinia, showing that that country is impoverished and famine stricken to an extent almost incredible.

He strongly urges upon the Italian government the desirability of taking advantage of the demoralization of Abyssinia by sending thither a now and formidable expedition, and points out innumerable ways in which prompt action in this respect would not only be profitable to Italy, but extremely humane and otherwise beneficial to civilization in its ultimate results. The government, it is well known, is anxious to pursue the course advised by Mgr. Antonelli, but it is restrained by public opinion from a too precipitate occupation of King John's domains, and it is not unlikely that official hesitancy may yet prove more disastrous to the consummation of Italy's scheme than French opposition.

England Dispatches War Vessels.

QUEBEC, Sept. 3.—Her majesty's ship Bellerophon, and two other English vessels, en route to this city, passed Caps Rosier Friday.

This show of force by Great Britain is a very significant reply to President Cleveland's message. It is equivalent diplomatically to the remark that the United States should remember, while proclaiming retaliation, that she is only, from a military standpoint, a fifth-rate power; that her seaboard everywhere lies defenseless before British ironclads; that her commerce can be swept from the oceans in a month by British cruisers; and lastly, that the questions of fishery rights and retaliatory measures are to be settled with Great Britain rather than Canada.

Queen Natalie Among Friends.

BUCHAREST, Sept. 3.—Queen Natalie has taken up her residence here, where she is not only convenient to Belgrade, but can have unrestricted intercourse with M. Hitrovitch, the Russian minister, and with Zarikoff, and any member of Bulgarian and Serbian agitators. It is not expected that she will be idle or have given up the hope of overthrowing the Austro-Serbian government of her husband, King Milan, and of establishing a Rumanian government as regent during the minority of the young prince, of whose custody she has lately been deprived.

Another Disaster at Sea.

LONDON, Sept. 3.—A collision occurred four miles from Tarifa Friday evening between the British steamer Cairo, from Cardiff, and the British steamer Sunnyside, from Odessa. The Sunnyside was sunk and eleven of her crew were drowned. The Cairo rescued the remaining ten and landed them at Gibraltar. A fog prevailed at the time.

China Won't Ratify Our Treaty.

LONDON, Sept. 3.—China has refused to ratify the treaty with the United States restricting the admission of Chinese subjects into the latter country. Even China is not afraid of the United States navy.

The Mahdi's Men Repulsed.

SUAKIM, Sept. 3.—Further reports from Khartoum are to the effect that the mahdi sent three expeditions against the white men in the Bah-el-Ghazi province, and that all had been repulsed.

Foreign Notes.

The National Zeitung, of Berlin, semi-officially declares that the Emin Bey relief expedition is not planned in the interests of

colonization, and the inference is that Germany has given up the idea of forming a chain of German stations across the continent of Africa.

The London Times says: "Canada may certainly reckon that reprisals affecting transportation in bond will arouse a great clamor among the large population dependent upon the prosperity of certain American railroads. Retaliation will likely enough be wreaked upon some such rack as this within the time of the coming winter." "The Times" is right.

Emperor William, in presenting new orders to various battalions of the guards, in the presence of the royal visitors, said he desired to confer a special honor upon the troops that had been under his father's special command, in sorrowful remembrance of him and in the hope that they would always guard and honor their flag.

BASE BALL.

Standing of the League and American Association Base Ball Clubs.

AMERICAN ASSOCIATION.
CINCINNATI, Sept. 3.—The week has been, on the whole, only a profitable one to the Cincinnati and Athletic clubs. While the St. Louis boys have advanced but two points, the Athletic club has gained twenty-eight, and the Cincinnati ten. Brooklyn has fallen thirteen points, Baltimore dropped five, Louisville dropped fourteen and to next to last place. Cleveland has gained two points, but the gain is insignificant, except that they are now third from last. Kansas City, too, has gained three points, but in light of circumstances that doesn't count.

The following is the standing of the various clubs:

	Won.	Lost.
St. Louis	38	30
Athletics	31	36
Cincinnati	29	38
Brooklyn	21	43
Baltimore	21	41
Cleveland	20	40
Louisville	17	62
Kansas City	13	65

THE NATIONAL LEAGUE.

CHICAGO, Sept. 3.—The standing is the same as a week ago, except that Boston has broken the tie then existing for fourth place, and are now playing dangerously near to the Detroit for third. One day may make a change in the make-up. New York has fallen away nineteen points, but still has a good lead. Poor Chicago has fallen twenty points. Detroit has gained fifteen. Boston gained twenty. Philadelphia gained fifteen. Pittsburgh, thanks to Chicago, has gained an average of one point a day, including Sunday. Washington has fallen eleven points, and Indianapolis has advanced six games. The race for second and third places is becoming a pretty one.

This is the record:

	Won.	Lost.
New York	44	30
Chicago	33	44
Detroit	32	43
Boston	31	47
Philadelphia	21	51
Pittsburgh	19	49
Washington	18	63
Indianapolis	13	67
